Looking to add something different to your big day?

You've scoured the wedding fayres yet every photo booth, photo pod or magic mirror company you've seen so far are exactly the same as each other! Who wants a guest book full of pictures of your guests holding tacky signs, pouting or making the peace sign? What's funny about that?

Presenting... The Vintage Photo Booth Experience from

Hiring us for your event is like booking a live comedy sketch show where you and your guests are the stars!

We dress you up in vintage costume and accessorize your look with real vintage props. We might transform you in to a housewife struggling to get your husbands puddings to rise, or maybe a dashing 1940's airline pilot wooing all the gals.

We give you these hilarious scenarios to act out inside the photo booth while the camera catches the action. We then get you to remove your costume and props and pose for a nice normal portrait. You are then presented with your pictures on a 6" x 4" vintage postcard, personalised with a picture of the happy couple, alongside their names and wedding date which our graphic designer prepares a few days before your wedding.

We also place a copy of each postcard inside your included guest book and invite your guests to leave you a message next to their pictures.

We guarantee we'll have you all crying with laughter!

With our theatrical background and the use of real vintage costumes, antiques as props and hilarious scenarios, we bring out the actor in you and your guests.

There really is nothing else like us in the UK.

We can't be matched and we'll never be beaten!

When you choose us here at *PictureBook PartyBooths* to be a part of your special occasion, you're not just hiring a photo booth, you're hiring a

Worth every penny!"
